YEAR 12 OCTOBER SCHOOL HOLIDAY PROGRAM

FAST FORWARD

ACCELERATE & LEARN A FULL MODULE BEFORE SCHOOL STARTS

4

4 day intensive accelerated course programs in small group classes

Cover all syllabus dot points to a full marks standard, plus a 180+ page workbook

Exam preparation advantage. Revise during the school term. Includes a HSC style mock-exam

99.95

Toughest HSC questions with answers created by Richard Chua and our subject matter experts

Access to 1:1 tutorials and online resources during the term

FAST FORWARD PROGRAM. MAKE YOUR TALENT COUNT.

TALENT 100

WHAT IS THE FAST FORWARD PROGRAM?

TALENT 100
HSC Success. Simplified.

The Fast Forward program allows students to do the bulk of their learning in the holidays and learn a Full Course Module before your school. The Fast Forward Program allows capable students to accelerate their learning, so they have greater time flexibility and are revising rather than learning content during the Term.

In a typical Talent 100 termly class, Mentors will spend 2.5 hours a week going through the theory and 30 minutes on the quiz and homework. At the end of each module, students take an examination and review totalling to 6 hours during the term. Hence, a typical ten week term is comprised of about 24 hours of theory, and 10 hours of examination* and homework review:

Fast Forward Students do this part of the course in the holidays

...leaving only 10 hours of Review of HW and exams

Fast Forward students will study the theory booklets of the course in the holidays and may elect to take the topic examination and review week with the regular Term Course program. These students then use the term to REVISE the content a second time.

What are the benefits of the Fast Forward Program?

Flexibility and Time Management. A major benefit of the Fast Forward program is that it frees up a student's time during the term. By investing time in the holidays to study the course, the student reduces their weekly time commitment during the term. This is a particular advantage for students in Year 11 & 12 who 'drop everything' to study for assessments that directly count towards their HSC; who are doing two or three subjects at Talent 100; and students who have extra curricular activities during the school term.

Efficient and structured learning in the holidays. The Fast Forward Program helps students utilise their free time in the holidays effectively and in a structured and enjoyable learning environment.

Getting ahead in class. Finally, the Fast Forward Program allows students to learn ahead of class, and gain a competitive advantage on their peers.

Because we cover ALL syllabus dot points to a full marks standard, students who attend the Fast Forward program will have covered the entire term's worth of work before their first day at school. This means they will have a greater understanding of what the teacher is talking about and be familiar with how to do the typical questions.

This second-time advantage is important, because when a student is covering the material for the second time, they will find it much easier to score the top marks. Many of our most successful students have done the Fast Forward Programs, and often remark that they can correct subtle errors that their teachers have made.

Who should do the Fast Forward program?

The Fast Forward Program is for any student who is:

- doing three subjects at Talent 100, as it will reduce their weekly commitment from 9 hours (which can be excessive when school is busy) to approx. 6 hours.
- prepared and motivated to invest their time in the holidays in order to advance their learning.

In contrast, students who feel they will 'forget' the information, may benefit more from doing the class on a regular weekly basis as well to learn the theory and REVISE during the term.

All Fast Forward students also receive the same access to 1:1 tutorials and online resources available to Termly enrolments.

Full access to our online resources for the topics you covered in Fast Forward for the full term. Login at **my-mentor.com.au** for notes, homework and exam preparations materials.

YEAR 12 FAST FORWARD SCHOOL HOLIDAY PROGRAM

TALENT 100
HSC Success. Simplified.

CHATSWOOD

Fri 5th Oct - Mon 8th Oct 9.15am - 4.00pm

TOPICS COVERED

- Polynomials I, II, III
- Exponential and Log Functions I, II
- Mathematical Induction I, II

Note: 50% off HMX1 Yearly Fees if enrolled in HMX2 Yearly Course

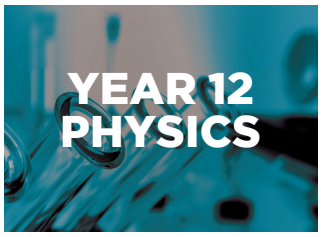
---

CHATSWOOD

Mon 1st Oct - Thu 4th Oct 9.15am - 4.00pm

TOPICS COVERED

- Equilibrium and Acid Reactions I - VI
- Practicals and Data Processing



CHATSWOOD

Tue 9th Oct - Fri 12th Oct 9.15am - 4.00pm

TOPICS COVERED

- Advanced Mechanics I - VI
- Practicals and Data Processing

Single Module Price : $1,295

PLACES ARE FILLING FAST. RESERVE YOUR SEAT TODAY!

Enrol Directly with Student Service or at: talent-100.com.au/enrol/fast-forward-holiday-program

Epping

Shop 20 and Shop 24 (Upper Ground),
74 Rawson Street Epping, NSW 2121

Chatswood

Level 5, North Tower, 1-5 Railway Street,
Chatswood, NSW 2067

Hurstville
